

BATTERY ACID CLEANER/NEUTRALIZER

HEAVY DUTY COLOR-CHANGING
TREATED SHEET FOR
LEAD ACID BATTERIES

Wipes

Wipe the surface, removing deposits. The blue wipe will turn pink in the presence of the acidic corrosion. Continue scrubbing the area until the wipe turns back to its original blue color. This will indicate that the acid has been neutralized.

Use On

- Automobile and Truck Batteries
- Golf Cart Batteries
- Terminals
- Connectors
- Trays

Features & Benefits

- Formulated to clean, remove corrosion, and neutralize battery acid
- If heavily corroded - after using wipes, a light scrubbing with a plastic bristle brush will remove corrosion with no messy foam
- Contains acid neutralizing agents
- Color changing system lets you know when the acid is neutralized
