Reciprocating Saw Blades

CIC 200™ Reciprocating Saw Blades 1/2" Shank, Bi-Metal Assortment

- Bi-metal construction of high cobalt content, high speed steel and alloy steel for faster cutting and greater durability
- A variety of blades for wood and metal cutting
- 1/2" Shank

CIC 200™ RECIPROCATING SAW BLADES 1/2" SHANK BI-METAL ASSORTMENT

FEATURES:

- Bi-metal construction of high cobalt content, high speed steel and alloy steel for faster cutting and greater durability
- A variety of blades for wood and metal cutting

CIC 200™ Specialty Reciprocating Saw Blade Assortment

- Pruning – Aggressive blade designed for rough-in wood, very fast cutting & pruning.
- Plunge-N-Cut™ – One step blade cuts without pilot holes. Double edge design for reversible cutting. Bi-metal construction for durability.
- Demolition – Extra thick blades designed for the toughest work. Resists bending and breaking.
- Tungsten Carbide Grit
Tungsten carbide grains bonded to alloy body for faster cutting and longer life. Designed for cutting abrasivematerials and the hardest steels.
- 1/2" Shank

CIC 200™ SPECIALTY RECIPROCATING BLADE ASSORTMENT

FEATURES:

- Pruning – Very aggressive blade designed for rough-in wood, very fast cutting and pruning.
- Plunge-N-Cut – One step blade cuts without pilot holes. Double edge design for reversible cutting. Bi-metal construction for durability.
- Demolition – Extra thick blades designed for the toughest work, resists bending and breaking.
- Tungsten Carbide Grit – Tungsten carbide grains bonded to alloy body for faster cutting and longer life. Designed for cutting abrasive materials and the hardest steels. For fiberglass, plaster, ceramic tile, soil pipe, composites, particle board, laminates, hardwood
